

Polywipe-C Wipes

100% no-run interlock knit standard weight polyester with knife-cut edges

Polywipe-C Wipes are made from a standard weight 100% knitted polyester that is knife-cut to create a soft edge. Soft edge is ideal for use on surfaces which are vulnerable to scratching. The wipe is chemical resistant and exceptionally low in particles and extractable residue making it ideal for critical cleaning.

These wipes meet the requirements of USP<797> and IEST-CC-RP004.4 for “non-shedding, low-lint, lint-free wipes”.

Features	Benefits
Low in both particles and extractables	• Reduces possibility of contamination
Soft edge	• Ideal for use on surfaces which are vulnerable to scratching
Good sorbency	• Makes it compatible with many solvents
